

D-013 TRASMISSIONE

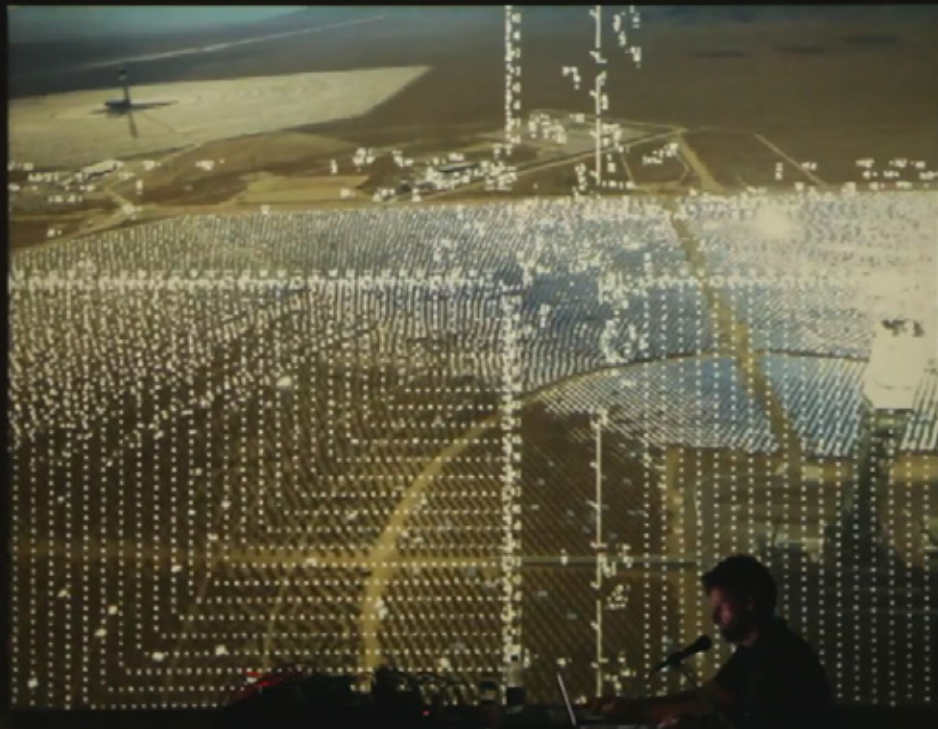

MFG PALTRINIERI - MIRKO SMERDEL - TOMMASO TANINI

Sitting between a lecture and a performance, *Trasmissione* explores the growing influence of images in everyday life as well as their power to expand and transform the reality around us.

Combining theoretical investigation with speculative fiction, *Trasmissione* can be perceived as an open diary, a work in progress where notes and observations produced by Discipula are intertwined with found footage and music played live by the electronic music composer and Discipula collaborator Nicola Ratti to investigate the complexity of contemporary images and prefigure their future.
